March, 2019

Dear Parents/Guardians:

In an effort to improve our residency and registration process to make it more convenient for our current families, we are moving to a new residency, registration, and fee payment process for the 2019-20 school year. This letter will outline the new process and highlight important dates and information.

Families can now submit residency verification documents (via e-mail, mail, fax, or in person) beginning Monday, April 1, 2019. Families who complete residency verification by May 31, 2019 are eligible to register online and pay fees beginning July 8, 2019. This process replaces the fee days we normally host in August. Please note there will also be no fee day mailing in July – information previously contained in the mailing will now be available on our website. If you enrolled an incoming freshman in January/February of this year, you have already complied with our residency verification process for not only your freshman, but for siblings who currently attend EPCHS.

On March 29, 2019, each family will receive an instant message regarding the 2019-20 annual residency verification process. As instructed in that message, you are asked to visit our website at evergreenpark.org, to view the new residency verification procedures under the Parent tab.

Our goal is to make the residency and fee process better suited to the needs of our families. We know that in years past, even with multiple fee nights, it was difficult for some families to attend. If you are able to meet the new deadlines, registration will be complete by July 31 and you may not have to come into the building or stand in lines.

We expect you may have questions or concerns. Please do not hesitate to contact us so we can assist you.

## **How Does Smart911 Work?**

Smart911 allows citizens to provide the additional details that 9-1-1 call takers may need in order to assist them during an emergency. When you dial 9-1-1 today the information received by the 9-1-1 call center can be limited based on the type of phone you are calling on. With Smart911, anytime you make an emergency call from a phone registered with your Safety Profile, the 9-1-1 systems recognizes your phone number and automatically displays your profile on the screen of the call taker who receives your call.

At a time when you may be panicked, or unable to communicate, or it could be unsafe to communicate, Smart911 ensures that the details you would need to tell 9-1-1 are immediately available in the event you cannot verbally provide them. Smart911 is free, private and secure.

## **Why Use Smart911?**

### **Why should I use Smart911?**

Smart911 can help protect you, your loved ones, and other members of your household. By creating a Safety Profile with Smart911 during a calm moment, you can take the time to ensure that the information is correct and accurate and exactly what you would like to be communicated to emergency response teams in an emergency. Smart911 is free to all citizens.

### **Where is Smart911 available? When I call 9-1-1 will they get my information?**

Although Smart911 is a nationwide service, it is not available in every municipality yet. Automated delivery of a Safety Profile to local law enforcement, medical and fire responders is dependent on local public safety agencies installing the Smart911 technology. Even if the service is not yet available in your home or work jurisdiction, we encourage you to create a Smart911 profile, since you may travel into an area that has enabled Smart911.

### **How do I know if my Safety Profile was successfully created?**

When you complete registration, Smart911 will automatically direct you to your Smart911 Safety Profile and will send a message to your registered email address confirming your account. Smart911 will not deliver your Safety Profile to 9-1-1 answering centers unless you have verified the phone(s) listed in your profile by responding to the text message or automated call placed to that phone.

### **How can I control who sees my Smart911 information?**

Your Safety Profile will only be displayed to a 9-1-1 call taker if you place a 9-1-1 call from a phone confirmed with your Smart911 account, and the 9-1-1 center receiving your call participates in the Smart911 program. You are in full control of the information you enter and the phone numbers you choose to associate with your Safety Profile.

### **Privacy & Security**

#### **Is my information kept private?**

Yes. Your privacy is important to us. Your information is made available ONLY to 9-1-1 call takers and responders ONLY in the event you call 9-1-1. In some areas, you can choose to allow Smart911 to share your profile with Emergency Managers as they prepare for and respond to emergencies. If you reside or work in one of these areas, you will be presented with this option.

#### **Is my information secure?**

Smart911 utilizes the highest standards in physical and computer security technologies and conducts regular audits to ensure all information held in Smart911 is kept secure, and only made available to 9-1-1 and emergency responders who are responding to or planning for emergencies. It's our business to protect your information and ensure it gets to the people that need it, when they need it.

Smart911 is accredited by the Better Business Bureau and secured and powered by Norton and Verisign.

#### **Will Smart911 sell my email address or spam me?**

No. Smart911 will not sell your email address to any person or company. Smart911 will only use your email address to keep you informed of important information related to the Smart911 service and your Safety Profile.

#### **Does Smart911 sell subscriber data?**

No. Smart911 respects your privacy and wants to ensure your trust in our service. We do not sell or share any information from your Safety Profile to third parties or marketing organizations. Your information is always locked in our secure facilities until it is delivered to participating 9-1-1 centers when you dial 9-1-1.

#### **Can 9-1-1 operators access my Smart911 information even if I don't call 9-1-1?**

No. Smart911 information is only made available to 9-1-1 call takers when you call 9-1-1 from phone that has been verified with your Safety Profile.

Some areas have access to Smart911's advanced Emergency Management system, through which Emergency Managers can access information within your Safety Profile when planning for and responding to emergencies. Your profile is only searchable by Emergency Management if you live or work in a supported area, and ONLY if you have elected to make information in your profile available to these agencies. If you provide an address in an area subscribing to this aspect of the Smart911 service, you will be asked if you wish to participate.
